OPINION OF THE COUNCIL.

Views of the Council

This is a very complex problem and it is not possible for Govt to support a measure of innovation unless it is backed up by a large volume of public opinion. There are no difficulties in the way.

The position will be explained and the official members will be instructed to remain neutral if the resolution is pressed to division.

Subject:—

Admission of Depressed Classes into temples.

These papers relate to certain resolutions proposed to be moved at the ensuing session of the Legislative Council on the subject of admission of Depressed Class Hindus into temples. Six Resolutions have been tabled for discussion, and in view of the undue importance and prominence given to this question in British India, it is likely that some of these resolutions take a high place in the ballot and come up for consideration by the Legislative Council.

The Muzrai Commissioner who was consulted in the matter, is of opinion that the question is a very intricate one and cannot be settled on mere a priori considerations. He adds that in Mysore, in the vast majority of temples under Government management, our position is more in the nature of trustees, and these institutions have therefore to be managed in accordance with tradition, practice and local usage. It is a fact, that non-caste Hindus are admitted in temples like Belur and Melkote on certain days in the year, but such cases are very rare. And until public opinion gradually changes in the matter, it is not possible for Government to take any step, which would amount to a violation of the trust vested in Government, especially as the large majority of temples are maintained by the endowments and offerings of devotees.

I generally agree with the Muzrai Commissioner's views. In addition to the points mentioned by him, it may be stated that it is not possible to issue a general order of the kind suggested in some of the resolutions. The Muzrai institutions are very large in number and varied in character including temples for which Government make only a nominal grant and they are subject to their own special

special usages and customs. There are also legal difficulties in the way, as usages having the force of law have sprung up in many institutions. It is therefore impracticable for Government to insist that all Muzrai Institutions should comply with the innovation. Further in social and religious matters, the Government can do very little without the co-operation of the general public in giving effect to measures of reform. Without such co-operation, any measures taken by Government will not only be futile, but as previous experience shows, will be harmful to the very classes, whose uplift is considered necessary.

The subject was considered at the meeting of the Council held on Saturday the 3rd December 1932 and the following views were recorded:-

> "This is a very complex problem and it is not possible for Government to support a measure of innovation unless it is backed up by a large volume of public opinion and there are no difficulties in the way.
>
> The position will be explained and the official members will be instructed to remain neutral if the resolution is pressed to division."

Gracious sanction of His Highness is solicited for the action proposed to be taken in the matter.

Community are not admitted inside the Temples. If is likely, public opinion should change in this respect there should be no objection on the part of Government to give effect to the change. No uniform rule can be laid down in respect of all Institutions. A change may be welcome in the case of certain institutions while public opinion may not be ready in others. Government cannot force the pace in such matters. It is for the public to prepare the necessary atmosphere to enable Government to make a forward move. Without the aid of a strong public opinion, Government cannot be expected to depart from the rules and usages prevailing in each Institution as to do so would be a violation of the trust, especially as the large majority of temples are maintained by the endowments and offerings of devotees

2. The appointment of a Committee as suggested in one of the Resolutions, will not I fear, help matters in any way. The facts are clear and there is nothing more to investigate. A more promising line of approach to a solution will be for the leaders to educate public opinion in respect of ~~early~~ each institution or group of Institutions and when public opinion is ready, to ask Government to carry out the change. Events in British India show that a heroic solution of the problem is not possible. In his latest communication even Mahatma Gandhi has recognised that when the majority of devotees have sincere conscientious scruples the reforms must wait. So long as Government have to manage the Institutions under their control to the satisfaction of the devotees, they cannot do anything more.

Dear Sir,

I enclose herewith a copy of D.O. letter No: 13 dated the 19th instant received by me from the Amildar, Thirthahalli Taluk intimating that there is a likelihood of the breach of the peace on Tuesday the 27th in connection with bathing at Ramathirtha, during the ensuing Jatra. From the information I have I understand that the Adikarnatakas (Harijanas) want to exercise the right of bathing in the particular spot reserved for bathing for all high caste Hindus on that day during the morning hours against all mamool. As this is an established right of the high caste Hindus and as a large number of people from different parts assemble in connection with the Rathotsava of Sri Rameswara Levaru, I think it might become necessary to prohibit the Harijanas from bathing at that particular spot between 5 A.M. and 12 noon on the 27th. As I am not aware of the policy of Government in such cases, I request to be instructed whether I could take such action in the interest of Law and Order.

I beg to report that the ceremony of bathing in the Penganga in connection with the Car festival of the Kaleswaraswamy temple, comes off on the 27th inst. [illegible]
i.e., Tuesday.

I have received information that some people will improperly interfere with the legitimate performance of the devotional exercise of the right of bathing of certain class of people and breach of public tranquility is apprehended thereby.

I therefore request you make arrangements for the immediate preventive measures to be taken in case any attempt that happens.

Dear Sir,

I am desired to acknowledge the receipt of your demi-official letter No. A. 4-C.C.18/32-33 dated the 21st instant, intimating that some trouble is apprehended on account of an attempt on the part of Adi Karnatakas to exercise the right of bathing at Ramathirtha, contrary to mamool, on the occasion of the car festival of Sri Ramaswami temple at Tirthahalli on the 27th instant, and enquiring about the policy of Government in such cases.

The general attitude of Government with reference to the question of admission of the members of the depressed classes into Muzrai institutions is indicated in the accompanying extract from the speech of the Second Member of Council at the last Legislative Council meeting on the 20th December 1932.

Yours sincerely,

G. M. Mehkri, Esq., B.A., LL.B.,
Deputy Commissioner, Shimoga District.

Immediate & Confidential.

Dear Sir,

G.M. Mehkri, Esq., B.A.,LL.B.,
Deputy Commissioner, Shimoga District.

Extract from the speech of the Second Member of Council at a meeting of the Legislative Council on 20th December 1932, (explaining the attitude of Government) with reference to a resolution moved by Mr. Belur Srinivasa Iyengar recommending to Government to throw open all Muzrai administered Hindu temples to the "untouchables."

Government while sympathising with the object embodied in the resolution find it difficult to accept it. It is not possible to issue a general order of the kind suggested in some of the resolutions. The Muzrai Institutions are very large in number and varied in character, including temples for which Government make only a nominal grant and they are subject to their own special usages and customs. There are also legal difficulties in the way, as usages having the force of law have sprung up in many institutions. It is therefore impracticable for Government to insist that all Muzrai Institutions should comply with the innovation. Further in social and religious matters, the Government can do very little without the co-operation of the general public in giving effect to measures of reform. Without such co-operation, any measures taken by Government will not only be futile but as previous experience shows will ~~nexxxxxkx~~ be harmful to the very classes whose uplift is considered necessary. The problem is a very complex one and it is not possible for Government to support this measure of innovation unless it is backed up by very large volume of public opinion Government prefer to remain neutral in regard to this matter.

Varnashrama Dharma Vivardhini Sabha
Puthur Agrahar.

A meeting was held under the auspices of the above Sabha on Wednesday the 10th January 1933, in Sri Lakshmikesava Swami's temple at Hosahalli, to protest against the temple entry by the Untouchables, under the distinguished Presidentship of Vedamurthi Brahmasri Lakshmikantha Upadhyaya. All the residents of Hosahalli and Puthur Agrahar attended the meeting.

After the invocation was celebrated, Mr. T. Rama Sastri, the Secretary of the above Sabha made known the purpose of the meeting of that day and also delivered a short but sweet speech showing how the awakened Sanathanists of Mysore State and abroad held Sabhas and sent resolutions based on Shastras and ancient Scriptures against the temple entry by untouchables to His Excellency the Viceroy and the Government of India. The following resolution moved by the Secretary was unanimously passed by all the members present:-

" We, the Sanathanists of Puthur and Hosahalli Agrahar in a public meeting held on the 10th January 1933 pray Your Excellency most humbly not to accord sanction for any bill regarding temple entry such as Dr. Subbarayan's and others' which is against Hindu Scriptures and established ancient usage. Legislation in religious matters is dangerous and against principle. Further the movement is really political by Mr. Gandhi and his followers to get political power. "

2. That Mr. T. Rama Sastri be authorised to send the copies of the proceedings of the above Sabha to His Excellency the Viceroy and His Highness the Maharaja of Mysore and to all the leading news agencies of India.

Amidst prayers to Almighty and with a vote of thanks to the President, the meeting terminated.
